

The Third Quarter Moon

Week of Completion

COMPLETING & RELEASING WORKSHEET

The energy available this week is for completing any projects, tasks or goals that are calling to you and for releasing the lessons and blockages that came up during this lunar cycle.

Answer these questions to highlight what you need to complete and release.

What do I need to tidy up or what do I need to finish?

What do I need to let go of and release?

Where do I need to surrender?

What happened in this cycle that I can learn from?

Don't let the limited space restrain your insights! Grab a notebook,
another piece of paper or print out another copy.

The gifts of the moon cycle are unlimited.
